Reasons for excisions:

Five excisions are required to remove depictions of sexual conduct involving "deep throat" fellatio in which the women concerned are highly degraded, dehumanised and demeaned.

**Summary of reasons
for classification:**

The DVD entitled *Fusxion Fantasies* is classified as:
Objectionable.

The main focus of the publication is the explicit depiction of sexual activity between men and women for the purpose of adult sexual arousal and entertainment.

The Classification Office required five excisions to the DVD in order to remove depictions of highly degrading, dehumanising and demeaning sexual conduct which results in the publication degrading, dehumanising and demeaning the women participants, and by extension, women more generally. Had the excisions been made the publication would have been classified as objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years. However, the distributor of the publication did not make the excisions to the satisfaction of the Classification Office. The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications that contain degrading, dehumanising and demeaning conduct, and that degrade, dehumanise and demean women to such an extent and degree that the publication is likely to be injurious to the public good, be classified objectionable.
